Instructions

The LCAP Federal Addendum is meant to supplement the LCAP to ensure that eligible LEAs have the opportunity to meet the Local Educational Agency (LEA) Plan provisions of the ESSA.

The LCAP Federal Addendum Template must be completed and submitted to the California Department of Education (CDE) to apply for ESSA funding. LEAs are encouraged to review the LCAP Federal Addendum annually with their LCAP, as ESSA funding should be considered in yearly strategic planning.

The LEA must address the Strategy and Alignment prompts provided on the following page.

Each provision for each program must be addressed unless the provision is not applicable to the LEA.

In addressing these provisions, LEAs must provide a narrative that addresses the provision **within the LCAP Federal Addendum Template.**

Under State Priority Alignment, state priority numbers are provided to demonstrate where an ESSA provision aligns with state priorities. This is meant to assist LEAs in determining where ESSA provisions may already be addressed in the LEA's LCAP, as it demonstrates the LEA's efforts to support the state priorities.

The CDE emphasizes that **the LCAP Federal Addendum should not drive LCAP development.** ESSA funds are supplemental to state funds, just as the LCAP Federal Addendum supplements your LCAP. **LEAs are encouraged to integrate their ESSA funds into their LCAP development as much as possible to promote strategic planning of all resources;** however, this is not a requirement. In reviewing the LCAP Federal Addendum, staff will evaluate the LEA's responses to the ESSA plan provisions. There is no standard length for the responses. LEAs will be asked to clarify insufficient responses during the review process.

This template is designed to be used by LEAs who already have completed their LCAP Federal Addendum and received approval from CDE. This template will support LEAs with the review of their LCAP Federal Addendum and revision.

The review and revision of the LCAP Federal Addendum do not need to be submitted to CDE for approval. However, an LEA should have their local Board approve any revisions.

Even if the LEA plans to transfer all of its title funds, it must still address all of the provisions of the title from which it is transferring its funds. The LEA must first meet the application requirements of those funds before it can elect to transfer those funds to another title.

California's ESSA State Plan significantly shifts the state's approach to the utilization of federal resources in support of underserved student groups. This LCAP Federal Addendum provides LEAs with the opportunity to document their approach to maximizing the impact of federal investments in support of underserved students.

The implementation of ESSA in California presents an opportunity for LEAs to innovate with their federally-funded programs and align them with the priority goals they are realizing under the state's Local Control Funding Formula (LCFF).

LCFF provides LEAs flexibility to design programs and provide services that meet the needs of students in order to achieve readiness for college, career, and lifelong learning. The LCAP planning process supports continuous cycles of action, reflection, and improvement.

Please respond to the prompts below, and in the pages that follow, to describe the LEA's plan for making the best use of federal ESEA resources in alignment with other federal, state, and local programs as described in the LEA's LCAP.

Strategy

Explain the LEA's strategy for using federal funds to supplement and enhance local priorities or initiatives funded with state funds, as reflected in the LEA's LCAP. This shall include describing the rationale/evidence for the selected use(s) of federal funds within the context of the LEA's broader strategy reflected in the LCAP.

The mission of Grow Academy Shafter is to close the achievement gap for students in the rural areas of Kern County by creating an environment for student excellence and well-being. Through an innovative program, Grow Academy incorporates health and wellness into a rigorous academic program with the goal of addressing the needs of the whole student.

Federal funds allocated to Grow Academy have been budgeted in areas to support this mission where LCFF funds fall short. Federal funding supports our enrichment programs, including an Edible School Yard, Music, and Art programs, Physical Education for all students, and parent education classes to support their ability to assist their student's academic and personal needs.

In addition, Federal funds allow us to provide additional support for Socioeconomically Disadvantaged students. With these funds, additional staff has been hired to provide all students with target intervention and enrichment courses.

Alignment

Describe the efforts that the LEA will take to align use of federal funds with activities funded by state and local funds and, as applicable, across different federal grant programs.

Grow Academy uses LCFF Supplemental and Concentration funds to support the needs of unduplicated students. The goals and actions described in our LCAP use state funding to support the needs of EL, SED, and Foster students. To align federal funds to support these goals, revenue received from Federal sources has been incorporated into these actions. Instead of creating additional LCAP goals, Grow Academy created additional actions within existing Goals to expand services within the LCAP.

ESSA Provisions Addressed Within the LCAP

Within the LCAP an LEA is required to describe its goals and the specific actions to achieve those goals, for each of the LCFF state priorities. In an approvable LCAP, it will be apparent from the descriptions of the goals, actions, and services how an LEA is acting to address the following ESSA provisions through the aligned LCFF state priorities and/or the state accountability system.

Grow Academy has a board-approved parent and family engagement policy that is reviewed and updated annually with feedback from both the School Site Council and the Parent Organization. This policy is posted on our website and addressed yearly in our back-to-school night (Mutual Promise Night).

Parent engagement in student academics is a top priority of Grow Academy. Throughout the school year, Grow Academy provides numerous parent education opportunities that primarily focus on state standards, understanding assessment results, how to assist their students with academic content, and social-emotional learning. During these events, teachers lead hands-on activities to support parent learning. In addition, the school holds content-themed nights (STEM, Literacy) to support parents in learning games and activities to play at home, which support student understanding of content standards.

All Grow Academy staff are provided with extensive year-round professional development. Teachers and instructional support staff participate in weekly PLCs, coaching sessions, and a 2-hour PD session every Friday. Monthly sessions on parent engagement and communication are incorporated into the Professional Development calendar throughout the year. Teachers are trained to facilitate quarterly parent-teacher team meetings that include; sharing student achievement data, goal setting, and celebrating the success of families. Teachers also conduct home visits for all students the week before school starts. The home visit process focuses on building a working partnership between the parent and teacher and encourages more frequent communication between home and school throughout the school year.

Grow Academy has a parent resource room that contains pamphlets and materials to provide information to parents on several topics, including SEL, Academics, and Mental Health. In addition, weekly Coffee and Conversation meetings occur to allow parents to meet with key staff members to learn more about the academic and social programs at Grow Academy.

Grow Academy uses the paid version of the Parentsquare messaging app that sends phone calls, emails and text messages in the parent's requested correspondence language. We also use the Document Tracking Services platform to translate all documents into the language of our families so they have access to all school correspondence as well as legally required documents (LCAP, SARC, etc.).

In addition to a School Site Council, Grow Academy has a parent group with a parent-elected board. This group collaborates with the school administration to provide opportunities for parents to be involved on campus. This group of parents acts as liaisons and advocates for the parents of Grow Academy.

The second goal of the Grow Academy LCAP is to "Create collaborative partnerships with parents to improve student achievement." Through this goal, Grow Academy has listed several actions and expenditures to support parents' involvement in the academic program.

Students' individualized learning plans drive the Lab class and support students' individual needs. This means the core classes can spend more time teaching standards-aligned, rigorous lessons to ensure all students advance. Lab teachers are credentialed and receive professional development in data analysis, targeted instruction, and intervention strategies.

Students who are not responding to interventions in the Lab classes are referred to the SST process, where more intensive support and services are provided. Parents are regularly informed of the progress of students referred to the SST process.

Enhanced Instructional Opportunities

ESSA SECTIONS 3115(e)(1) and 3116

Describe how the eligible entity will provide enhanced instructional opportunities for immigrant children and youth.

Complete responses will:

1. Describe the activities implemented, supplemental to all other funding sources for which the LEA is eligible, that provide enhanced instructional opportunities for immigrant children and youth.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Grow Academy has 6 migrant students. We have employed an Assistant Principal who checks in regularly with migrant families to ensure they have access to resources and understand the educational expectations of the school's program. To attend to the specific academic needs of these students, small group instruction provides an opportunity for a teacher to remediate or enrich. Additionally, these students have access to a suite of educational software so that they can practice skills at their independent level. If these licenses need to be extended after a student leaves our program, the Assistant Principal will work with the family to ensure there is no gap in services between our school and enrollment in the next.

Title III Programs and Activities

ESSA SECTIONS 3116(b)(1)

Describe the effective programs and activities, including language instruction educational programs, proposed to be developed, implemented, and administered under the subgrant that will help English learners increase their English language proficiency and meet the challenging State academic standards.

Complete responses will:

1. Address the effective language instruction programs specific to English learners.
2. Address Title III activities that:
 - are focused on English learners and consistent with the purposes of Title III;
 - enhance the core program; and
 - are supplemental to all other funding sources for which the LEA is eligible.

THIS ESSA PROVISION IS ADDRESSED BELOW:

All STEM and Humanities classes incorporate ELD standards into the core content. Teachers leverage GLAD strategies and the UDL framework to ensure ELs are mastering the content standards.

During Lab instruction, identified English Learners receive designated ELD instruction in guided reading instruction, enriched with a focus on vocabulary. In the STEM classroom, students often participate in small group instruction with groups developed by reflecting on a scholar's mastery of a particular standard, reading level, language development level, or area of interest. Small group instruction enables ELs to master math content standards in a more focused setting. In the Humanities classrooms, co-teachers leverage station teaching and parallel teaching techniques to support mastery of ELs.

English Proficiency and Academic Achievement

ESSA SECTIONS 3116(b)(2)(A-B)

Describe how the eligible entity will ensure that elementary schools and secondary schools receiving funds under Subpart 1 assist English learners in:

- (A) achieving English proficiency based on the State's English language proficiency assessment under Section 1111(b)(2)(G), consistent with the State's long-term goals, as described in Section 1111(c)(4)(A)(ii); and
- (B) meeting the challenging State academic standards.

Complete responses will:

1. Address how sites will be held accountable for meeting English acquisition progress and achievement goals for English learners.
2. Address site activities that are supplemental to all other funding sources for which the LEA is eligible.

THIS ESSA PROVISION IS ADDRESSED BELOW:

English Language Learners have 90 minutes of literacy instruction, which is leveled by reading ability, assigned to CA standards, and targeted by ELD level. The progress of ELs is monitored using the Informal Reading Inventory (IRI) and the ADEPT assessment. ELs are assessed using the IRI every six weeks and quarterly using the ADEPT assessment. At the end of the year, ELLs take the ELPAC assessment. These results are used to determine reclassification.

The ELAC committee, comprised of parents and staff members, assists the school in monitoring the progress of ELs and the effectiveness of the school's programs targeted at English Learners.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Title IV part A will be incorporated with an action supported by S&C and title I funds. The action is 2.01 Coordination of Services Team.

The Coordination of Services Team (COST) works collaboratively in support of the schools multi-tiered systems of supports. This team reviews academic and culture data weekly to identify school, cohort, and individual student needs and creates a plan of support.

Responding to the needs of community the following team members provided intervention, services, and resources to students and families: (1) School Psychologist, one (1) School Counselor, one (1) Dean of Student Culture, one (1) Behavior Specialist, one (1) School Social Worker, and one (1) Assistant Principal. This team will work with families to enhance the frequency of communication in order to identify the most effective strategies that aim to improve academics, while assessing behavioral and social-emotional progress.

With support from the Instructional Leadership Team, COST will set up structures and systems to support Low-Income families by overseeing the implementation of parent engagement education events and school culture initiatives to support the success for all students.

Our Assistant Principal works with teachers and academic coaches to ensure unduplicated students are receiving target academic support as indicated in a student's Individualized Learning Plan (ILP). A student's ILP is co-created by teachers, families, and the student to set specific goals and actions to help the child meet academic benchmarks. The ILP is also used in the Learning Lab as a part of our MTSS approach, providing multiple tiers of intervention for students in need of additional assistance.

GAS' School Social Worker provides guidance and support for the school's implementation of the PBIS framework. This includes delivering professional learning to the school's staff as well as providing in-classroom support. As needed the School Social Worker is a trained mental health professional who can respond to the needs of students with individual or group counseling needs. Their support extends to working with families to access resources at home and within the school to ensure the child's continued growth and achievement.

The School Psychologist is responsible for the assessment and behavior management for students with emotional disabilities, learning disabilities, autism and behavioral challenges.

The School Counselor is responsible for promoting student success, providing preventive services, and responding to identified student needs by implementing a comprehensive school counseling program that addresses academic, career, and personal/social development for all students.

The Behavior Specialist provides leadership and direction to design, implement, coordinate and evaluate a comprehensive support program for specifically identified students and works with the students to adopt behaviors that increase academic performance and social/emotional development. The Behavior Specialist works cooperatively with teachers and leadership to promote positive student behavior by providing professional development that targets research, strategies and modeling of instructional practices to support staff in their implementation of positive behavior support in their classrooms; engaging parents in the student behavior intervention plan process.

Staff salaries contribute to this action.
